

Pressure Heads For Extrusion Units

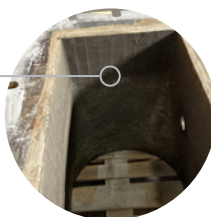

Manufacture and refurbishment of multi-brand pressure heads from drawings or based on your existing geometry. Each solution is adapted to your machine, your clay, your die and your production level.

LINING RANGE

HiChrome Hardfacing

Chromium carbides
Excellent wear resistance
Repairable

ClayFlow™ - HDPE Lining

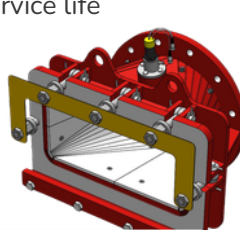

Best compromise between sliding performance / service life

Optimized sliding

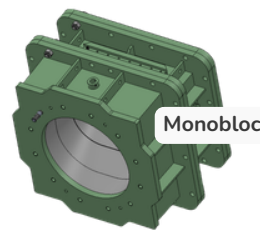

Optimized machine performance

Casted/bolted panels

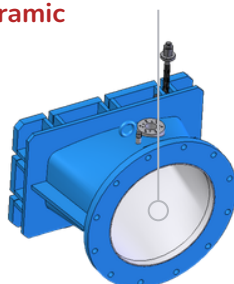

+ Interchangeable

Monobloc

CERAXIS™ Lining – Al₂O₃ Ceramic

High resistance to abrasion
Good sliding properties
Reliable

+ Multi-brand pressure heads

Complete maintenance of pressure heads

Rebuilding of worn areas
Original frame retained
Reduced ownership cost
Extended service life
Several refurbishment cycles possible

Monitoring of extrusion conditions

Pressure
Temperature
Vacuum
